COMMUNITY NEWS

Quarry Safety Campaign – Stay Sage Stay Out

Tragically, over the past few years a number of young people have been killed or seriously injured after entering disused or working quarries and got into difficulty in deep cold lagoons or on the steep rugged quarry faces. With warm weather and the summer holidays approaching, there is concern that children, teenagers and young adults could be tempted to enter their local quarry.

The national 'Stay Safe' campaign is to raise awareness amongst younger children, teenagers, parents, teacher and youth workers about the dangers of entering quarries uninvited.

'STAY SAFE STAY OUT' please heed this warning, that quarries (working or disused) are not fun places and that by trespassing they place both their own and their friends lives at risk. Fencing and warning signs are there to protect them. Please do not ignore them.

Calling All Parents of School Children in Key Stage Two

(Please see details below from University of Ulster)

University of Ulster is seeking to recruit parents of pupils in Primary 5-7 (8-11year olds) to complete an online survey.

We are facilitating an important research study being undertaken by the Psychology Research Institute at Ulster University which is seeking to identify factors influencing children's oral health related behaviours

Participation in this study involves completing a survey which asks questions surrounding your child's tooth brushing, dental visits and sugary snack consumption habits. Completion of the survey should take approximately 20 minutes.

To participate, please visit: https://ulsterhealth.eu.qualtrics.com/jfe/form/SV_1BRFWwflWyrvGL4

If you would like further information or to discuss participating, please contact Dr Marian McLaughlin

(email: m.mclaughlin@ulster.ac.uk telephone 028 7012 4599).
